Claiming Disability Living Allowance

A Guide for People with Ulcerative Colitis and Crohn's Disease

This 40-page guide aims to help individuals present their DLA application in a fair and accurate way. The effects of Inflammatory Bowel Disease (Crohn's Disease and Ulcerative Colitis – UC) vary between individuals and can vary over time. The DLA form is not structured in a way to make it easy to convey these effects. The Guide gives step-by-step suggestions. There is also a back pocket containing a claim file record sheet, a medical visit record sheet, a fact sheet on IBD, a sheet to help health professionals, plus a 12-page guide on making an Appeal.

Written by benefits specialists after extensive research and close liaison with the National Association for Colitis and Crohn's Disease, this is a must for advice agencies and for people whose Crohn's or UC is having a substantial effect on their lives.
